OBJECTIVE

Motivated Computer Science undergraduate at REVA University (2nd Year) seeking a software development internship. Skilled in C, C++, Data Structures & Algorithms, Web Development, and SQL. Eager to apply problem-solving abilities and programming fundamentals to real-world projects.

EDUCATION

Bachelor of Technology— Computer Science & Engineering

REVA University, Bangalore | 2024 – 2028 (Expected)

TECHNICAL SKILLS

Languages: C, C++, JavaScript

Web Development: HTML5, CSS3, Responsive Web Design, DOM Manipulation

Core CS Concepts: Data Structures & Algorithms, OOP (via C++), DBMS

Database: SQL, MySQL (CRUD Operations, Joins, Queries)

Tools & Platforms: Git, GitHub, VS Code

PROJECTS

Amazon Clone — E-Commerce Frontend | HTML5, CSS3

- Designed and developed a pixel-accurate clone of Amazon's homepage, replicating core UI components including navigation bar, hero banner, product grid, and footer.
- Implemented structured HTML5 layout with semantic tags and applied CSS3 styling including Flexbox to achieve a clean, multi-section page layout.
- Strengthened understanding of real-world frontend architecture, component-based UI design, and web page structuring through hands-on project development.

Personal Portfolio Website | HTML5, CSS3

- Built a fully structured multi-section personal portfolio from scratch featuring Navbar, Hero, Skills, Projects, Achievements, and Resume sections.
- Applied CSS3 layout techniques (Flexbox) and visual hierarchy principles to create a professional, organized, and visually consistent user interface.
- Demonstrated ability to plan and execute a complete web project independently, covering information architecture, UI design, and cross-section navigation flow.

RELEVANT COURSEWORK

Data Structures & Algorithms | Object-Oriented Programming | Database Management Systems | Computer Networks (ongoing) | Operating Systems (ongoing)

ACHIEVEMENTS & ACTIVITIES

- Completed projects independently demonstrating self-learning ability in frontend web development.
- Actively solving DSA problems to strengthen algorithmic thinking for technical interviews.
- Pursuing internship opportunities to apply academic knowledge to industry-level software projects.
